STUDENT HEALTH CENTERS

Your partner for
STUDENT SUCCESS

School-Based Services

Grace Health Student Health Center offers quality healthcare for your child's physical and mental health needs in a friendly setting at a time that is convenient for the student and family.

School-Based Health Centers (SBHC)

Grace Health SBHCs are staffed with a medical provider, behavioral health provider and support staff.

The Health Center's medical provider can be your child's regular provider OR can support your child's regular provider/pediatrician.

Services include routine well-child exams with immunizations, school and sports physicals, preventative care, urgent care and behavioral/mental health services.

Medical services are offered to infants and pre-school children of adolescents, where appropriate.

Behavioral Health

Behavioral Health helps you manage your personal challenges, big or small, and guides you to healthy, productive solutions. Behavioral Health services include assessment, guidance and treatment when you are experiencing stress and other problems affecting the quality of your emotional and mental health.

Receiving Care

Most services require parental / guardian consent. Your student may come to the Student Health Center anytime during regular hours or an appointment can be made by calling the Health Center directly.

Confidential Services

Under Michigan law a minor may seek their own health care for confidential services. The following confidential services are provided at the Student Health Center:

- Sexually transmitted infection testing and treatment
- Pregnancy testing
- Behavioral health services

Parental / guardian consent is not required for the confidential services listed above.

Insurance Payments

Grace Health will see all students regardless of their ability to pay. Medicaid and most commercial insurances are accepted. If you have insurance, we will directly bill your insurance company. If you need assistance with Medicaid enrollment, our staff is here to help. Grace Health also has a sliding fee scale available that is based on income and family size. For billing questions or concerns, call (269) 441-3456.

Privacy Practices

Please visit the Grace Health website at www.gracehealthmi.org/privacy-practices/ for a copy of the Privacy Practices information or ask the Health Center staff for a copy. Please review this information carefully.

About Grace Health

Grace Health is committed to you, treating your health care needs and getting you on a path to better health. We want to be your medical home. What that means to you is that we will work with you and will always respect your preferences. We will provide you with the education and support you need to make the best decisions and to participate in your own care.
